## REGULAR MEETING OF COUNCIL LAST NIGHT

regular meeting of the city council last night brought before the council many important matters. The meeting was held at city hall last evening.

## BOARD WILL MEET

New Board of Public Works Will Meet at City Hall This Afternoon at Five O'clock.

Janesville's city council held their second regular meeting at the city hall last evening at eight o'clock. All of the aldermen were present and some very lively discussion took place during the meeting.

At the opening of the meeting City Clerk James B. Worthington read the minutes. Aldermen Horn and Pautz were absent. The minutes were read and approved. The motion was made by Alderman Pautz to place the new sewer to be placed in the first ward. Alderman Horn wanted the motion corrected on the minutes to read Place street in place of Palm street. This was vigorously opposed by Alderman Welsh, who claimed that the minutes should not be changed. The motion was adopted by an unanimous vote.

Alderman James True of the second ward then made a motion to place an iron gutter over the street crossing at Milton avenue and Glen street. Street commissioner was ordered to do the work.

The question then arose as to the street paving to be done this year. The commission form of government was adopted. The motion was made by Alderman Pautz to place the new sewer to be placed in the first ward. Alderman Horn wanted the motion corrected on the minutes to read Place street in place of Palm street. ## MANY RESIDENTS HAVE NOT PAID ASSESSMENT IN WAR FUND DRIVE

George S. Parker States That Canvass Will Be Resumed Next Week—Non-Residents Are Paying.

In a statement issued this morning relative to the county war fund drive George S. Parker said, "Owing to the fact that the Liberty Loan campaign has been holding the center of the stage for the past few weeks the people of the county are under the impression that the war fund drive is over." Mr. Parker further stated that the committee deemed it advisable to temporarily give up the work of the "Your Share is Fair" campaign.

Mr. Parker stated that he would like to make known to the people that the campaign is not over and that there are several people in this city and county who have not as yet paid their assessments. He urged that they pay their assessments as soon as possible in order that the work may be finished at an early date.

Many remittances are being received daily from non-residents and former residents of this city. This morning Mr. Parker received a check from the Valley View Hotel, Madison, Wis., for \$101.10, and another from Herman Dick of Chicago. Other checks which have been received in the past few days are from the Rock County Bank, J. Matthews of Whitewater.

Mr. Parker stated this morning that the canvassing is going to open again next week. He urged that the people of this city who have either refused to pay or have forgotten it to pay before the campaign closes.

The captains of the different teams are busy at the present time checking up with Mr. Wisner and it is expected that the final figures will be completed in a few days. This plans the canvass to be used in the "Share is Fair" campaign are attracting considerable attention throughout the country and Mr. Parker is receiving a great number of letters and calls relative to the manner in which the campaign was carried on in this county. The main feature of the campaign which is causing so much attention is the work of the strong arm squad. Several requests have been received by Mr. Parker to explain the exact work which is done by the strong arm crew.

Mr. Parker spoke of the Rock County residents who absolutely refused to pay their assessments. A man who is well to do drove his car into a garage and started to operate the car. He was very cooperative that it be fixed in order to operate the car. When the mechanic was half through his work someone told him that the owner refused to pay for the work. The mechanic refused to proceed with the work and being unable to run the car pushed it out into the street. Still the man refused to pay and rather than give in he waited until the next morning when his son came and hauled the car home.

The story is gaining wide circulation and it is expected that many more of the county a person visits that the question asked them is what happened to the man who refused to pay. The man who refused to pay is now being sought by the strong arm squad.

Four other youths, Martin Johnson, Walter Cantwell, Henry Cantwell and Percy Peabody, were before the judge this morning on the charge of being delinquents. They were brought into the court for taking coal from the cars standing on the Afton track. According to the railroad detective who had them arrested, they had taken coal from one car and had before they were caught. The judge decided to take the cases under advisement and ordered the boys to appear before him on the 15th.

## COL. SIMMONS TELLS OF MEMBERSHIP PLAN

In Address Before Business Men at Luncheon He Explains Plural Membership Plan.

In his talk before a group of business men at the Myers Hotel yesterday, Col. Simmons explained in some detail the Plural Membership Plan, which is one of the leading features of the American City Bureau organized by the American City Bureau.

The Plural Membership Plan is the established idea which has been adopted within the last eight or nine years in more than one hundred cities that have been the most successful civic-commercial organizations. Under this plan corporations, firms, and individuals are asked to subscribe for a number of memberships and assign these memberships to young men in their employ or to someone in whom they are interested. The full voting power and full membership rights go with these assignments.

Such assignment of memberships brings into the organization many young men full of "pep and go," who will do splendid work on committees, whose citizenship will be developed and vision broadened and who will relieve older men who are loaded with other responsibilities.

It was explained further by Col. Simmons that although a firm may hold several memberships it cannot exert any strength in the election of officers of the association, since no pooling of votes or proxies is allowed.

Organized for the purpose of providing suitable entertainment and escort for men of the Selective Draft who are called into the Federal Service for the duration of the war, both while in the city and enroute to their respective stations. The dues to be two dollars monthly.

This organization plans to aid the Federal Government in investigations of alleged disloyal statements and acts and to do all in their power to secure convictions for such offences.

We the undersigned enroll ourselves as members of the National Service Welfare Association and agree to pay the dues prescribed for the duration of the war.

## 2 STRINGS TROTTERS AND PACERS TRAINING ON THE LOCAL TRACK

With what success the racing season will be inaugurated this year is shown by the purse of \$150,000 which has been put up for the first spurt of the season's racing in Michigan, which begins June third and has a continuous session of twenty weeks on the Michigan circuit. It is thought that several horses which are being trained by G. A. Spencer of this city at the county fair park are expected to make a clip on that turf. The racing opens at Mount Clemens, Michigan, on June third and will stay there for one week.

According to Dr. Wauflle the names of all entries for the circuit will have to be in by the first of June, for those who are going for the \$1,000 purses. Besides this there will be the class races with \$500 purses attached.

Two colts sired by the "Undetectable Belwin" are also on the track and according to the trainer Mr. Ramsey they are the best colts over in condition on these tracks. Mr. Ramsey says that the trainer of the famous Mabel Trask who was the center of attraction in all racing circles during the past season. He is also training "Tetrazina," a mare of considerable speed.

Other horses training at the fair grounds are Win Dillon, a green pacer, Bird Alan, 14 1/2 pacer, Little Rapids, Rosina Banger, Dora Fitch, all trotters, Mabel Fuller, Don Wakefield and Dr. Dick, green trotters, Hattie Direct, The Importer and Miss Mitchell, three fast pacers.

G. A. Spencer says now training in the past ones at the local fair grounds. Although the war has made an inroad in the raising of good horse flesh for racing purposes it is believed it will not make noticeable difference on the dirt track this year, on the number of entries or the style of racing put on. All varying countries, especially England, France and Australia have put on as good racing as ever before and the patronage has not suffered. It is believed by the wise across that the same will be the case for the turf in this country.

Michigan again this year furnishes the thermometer with which to measure to success or failure of the racing season for on June third the Michigan State Ship Club will open its half mile tracks opens for a continuous session of twenty weeks.

## DONOVAN IS SUCCESSFUL WITH DETROIT PITCHERS

(By International News.)  
New York, May 7.—Having failed in winning an American league pennant in two cracks at it with the Yankees, Bill Donovan, old-time winning pitcher in the Detroit circuit, is beginning to see the glimmer of the crown that fits his head. Bill is just about to roll in the fame of coach of the Detroit pitchers. And if he does he will absolutely be the pitching coach who ever has attained fame in any more than passing remarks.

Long ago it was noised over the land and accepted as truth that Hugh Jennings, who runs the Detroit club, simply could not induce good pitching material, and could not develop those with whom he came in contact as Tigers. The men who have become stars on the Detroit team have done so there; they needed no help.

Coach after coach has taken his turn with the set of fingers and thumbs by the "Tigers," and one and they have failed to accomplish the results necessary. Now Bill Donovan is trying it—the Bill Donovan who pitched the Tigers into the pennant in the old circuit. Bill will get results that will show at the top of the list remains to be seen. The going will be hard and a lot of ball games must be won to make the Tigers champions of the American league. But Bill certainly has been getting results during the spring trip, as the Cincinnati Reds will testify.

Bill often has been remarked—quite truthfully, too—that the Detroit Tigers needed only tight pitching staff to enable them to win pennants. If the Tigers had been blessed with that staff there is no telling how many pennants they would have carried in the American league. They probably would have had 'em in a sort of exclusive fashion.

With a lineup reading from left to right: Ty Cobb, Bobby Veah, Harry Heilmann, and all the famous sluggers who have departed themselves in Frank Navin's uniform, and a pitching staff to hold the opposition down to a minimum of runs, the Tigers certainly would be returned to now as the greatest team that ever played baseball.

When Donovan was manager of the Yankees he was credited with being a shrewd handler of pitchers. George Meeker deposed under his management and turned in a no-hit game. His service as Bill's best left-hander, Nick Callan was a star with

## WORLD'S SERIES NINES SELDOM REPEAT FEAT

(By International News.)  
New York, May 7.—If the Giants and White Sox meet in the world's series this fall they will be the fourth pair of teams to meet twice in succession for title.

Baseball history dating back to 1884 shows that but three sets of teams have accomplished this feat before and the Cubs and Tigers are the only teams in modern baseball history who have monopolized the big series for two straight years.

The famous Cubs of 1906 to 1908 won three straight pennants for Chicago in the National league, and their first world's series in modern competition between the National and American leagues resulted in defeat at the hands of the White Sox. The next two years, 1907 and 1908, the Cubs battled Detroit in the fall classic, and on both occasions they annexed the bunting.

Another interesting feature is the fact that the Cubs, Tigers and Giants are the only clubs that have won three straight pennants in either big league since the American league was formed.

In title series for the world's championship prior to the formation of the American league, the Chicago National and the famous old St. Louis Browns, of the American Association, met two successive years for the championship—in 1885 and 1886. In 1885 and 1896 Cleveland and Baltimore met in what was known as the Temple Cup series, played between the first and second place clubs in the National league.

The White Sox and Giants, picked by a majority of the critics to repeat in their respective leagues, have a chance to break into a rather exclusive class of world's series teams.

While mentioning past performances of ball clubs it appears that the old St. Louis Browns of Chris Ladd, who established a record that will probably stand for many

## BADGERS PREPARE TO BATTLE WITH PURDUE

Madison Wis., May 7.—Confident as a result of their defeat of Purdue in the opening game of the conference baseball season last Saturday, the Badgers returned home yesterday, and prepared for a hard week's practice before they tackle the maroons at Chicago next Saturday. Coach Page's men are regarded as worthy foes and the Badgers realize that they will have to play top-notch ball in order to win.

Coach Jones' track men will leave this week for a dual meet with the University of Minnesota on Saturday. Minnesota is considered to be the fair team this year for they defeated Nebraska last week by a score of 60 to 47.

## STOMACH RELIEF WINS HIGH PRAISE FROM EX-SENATOR

The Hon. W. V. Sullivan Tells What An Excellent Remedy EATONIC Is For All Stomach Troubles.

SENATOR W. V. SULLIVAN

One of the most important discoveries of our time, and one of the most beneficial is EATONIC, the wonderful stomach relief. No other remedy has won the enthusiastic praise of so many famous men and women. Now the Hon. W. V. Sullivan, ex-Senator from Mississippi adds his testimony to this great healer. Ex-Senator Sullivan's letter is the more remarkable because he speaks from personal experience. Writing from Washington, D. C., to the Eatonic Remedy Co., Chicago, he says:

"I have used EATONIC Tablets in my family and find them an excellent remedy for dyspepsia and all forms of indigestion. Yours respectfully,  
W. V. SULLIVAN."

This is the written testimony of an eminent public man, and as such it merits the instant consideration of every sufferer from stomach troubles. If you have stomach trouble every day, the agonies of belching, indigestion, dyspepsia, sour stomach, bad breath, heartburn, and resulting headaches and lassitude. To those who suffer these miseries, we say, try EATONIC. It will give you almost instant relief. Here's the secret: EATONIC drives the gas out of the body—and the Bloat Goes With It. It is guaranteed to bring relief or you get your money back! Costs only a cent or two a day to use it. Get a box today from your druggist.

## When He Gets that Pouch of Real GRAVELY Chewing Plug You Sent Him

A man's first impulse is to share a good thing. Real Gravelly Plug has been spread all over America simply by the Gravelly offer offering a small chew to his friends. Tobacco like that is worth sending. It means something when it gets there.

Give any man a chew of Real Gravelly Plug, and he will tell you that's the kind to send. Send the best. Ordinary plug is false economy. It costs less per week to chew Real Gravelly, because a small chew of it lasts a long while.

If you smoke a pipe, slice Gravelly with your knife and add a little to your smoking tobacco. It will give flavor—improve your smoke.

Wouldn't most anybody join "most" at Rockwell field vote "yes" to a man anything in order to have this vivacious little lady for a godmother? The boys of the Fourteenth aero squadron comedian of the American Film com-

pany, has adopted every member of the entire fourteenth as a godson.

The fourteenth is the oldest aero squadron in the American air service, having first been established at North Island three years ago. The boys were delighted when Miss Fisher accepted their invitation to become the squadron godmother and gave her a famous reception when she paid them her

first visit. She left her squadron plentifully supplied with smiles and also promised to present a gold medal to the first godson who would bring down a Hun.

Before Miss Fisher adopted her soldier boys she was known as Miss Fischer, but after a little ceremony held in the Santa Barbara studios last week her name has no trace of Ger-

**SEVEN WHITE SCENARIO**  
One of the most unusual stunts to be pulled off by a scenario department since the inception of such departments is now being done by the scenario staff of World Pictures. The seven members of the staff are now engaged in writing a film story, in which one member of the staff will be responsible for the story and continuity contained in one reel.

This experiment is being watched with great interest. There will be only five reels to the feature, and Charles S. Sarver, scenario editor, is acting as general supervisor of the work, while another member of the staff is acting as a sort of free lance, able to jump in wherever needed to help out story and continuity, and he will write the titles for the production.

Great things are expected from this unusual combination. The World scenario staff members combining on this production are Charles S. Sarver, scenario editor; Clara S. Beranger, Wallace C. Clifton, Harry Hoyt, Hamilton Smith, Lucien Hubbard and George D. Proctor.

**A LADY CHARLIE CHAPLIN**  
Universal has decided to develop a female Charlie Chaplin if such an achievement is possible. Instructions have been issued to comedy directors that their main effort in life henceforth is to find, rope and keep a female who will be known as the "funny woman of the screen" for some years to come.

Heretofore makers of comedies have depended largely upon shapely women as the support for male comedians. While these women have made beautiful pictures and have created the hit-headed and kept in the motion picture theaters, they have caused admiration rather than laughter, and it is the idea of the Universal company that comedies are made for the purpose of making people laugh.

Have you forgotten the ambitions that your mother had for you? This is a question that ought to make every man pause and reflect, for his mother is the one person in the world who has his interest at heart. His success means her happiness. All mothers are unselfish toward their children and would gladly die to make them happy.

"Turn to the Right!" the reigning comedy success by Winchell Smith and John E. Hazzard, which comes to Myers Theatre Sunday night, May 12th, is a story of the unselfish love of a mother for her boy. His friends are her friends and his happiness is her life. Also his mother's happiness is his son's greatest. In that he knows his mother would wish him to be.

"Turn to the Right!" has its setting in the home and its inspiration is mother. It has a beautiful love story with big dramatic moments and is full of fun.

# APPEAL TO EMPLOYERS TO USE STATE AGENCY FOR SECURING LABOR

[SPECIAL TO THE GAZETTE.]  
Madison, Wis., May 7.—The Industrial Commission, which is acting as the director for Wisconsin of the United States Employment Service, has issued an appeal to employers in this state to make exclusive use of the employment service in procuring needed workmen. The purpose of this appeal is to prevent promiscuous advertising for help and to protect firms engaged upon important government work from having their employees taken from them by reckless employment agents.

A number of instances have come to the attention of the commission in which some firms in the state and a larger number of outside firms have sent agents to various places in Wisconsin, or inserted advertisements in the newspapers, to draw workmen to their establishments. In many cases workmen have been taken from plants doing important government work to establishments which are engaged in producing non-essentials. In some instances also the workmen who have gone to these outside firms have found that conditions were not as represented.

The commission has called the attention of the firms which have been sending out these agents or advertisements to the United States Employment Service. This service through its nationwide connections can get employment for all of the workmen they need without interfering with necessary war production. Firms outside of the state which have been guilty of these practices are being reached through the United States Department of Labor. Throughout the nation an effort is being made to centralize the labor market in the United States Employment Service so as to procure maximum efficiency out of the available labor supply. The Industrial Commission is the agent of the United States Employment Service for this state.

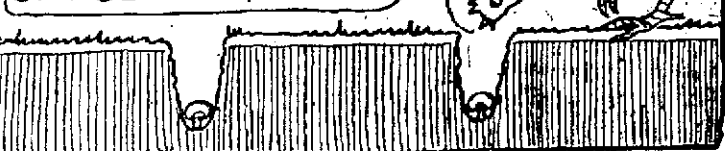

## FOURTH CIRCUIT'S ACROBAT PLACED ON TRIAL TODAY

[BY INTERNATIONAL NEWS.]  
Washington, Conn., May 7.—Mrs. Sarah Lucier, wife of Paul Lucier, was placed on trial here today on a charge of murder. On March 3 Mrs. Lucier stabbed and killed George McCarthy, a watchman in the woolen mill at Moosup, because, it is alleged, he addressed an insulting remark to her son, who had been sent to the mill to inform the watchman that her husband could not come to work that night. Mrs. Lucier was once jailed for an attempt to shoot her husband. She was formerly an acrobat with a traveling circus.

## REGULATIONS ADOPTED FOR USE OF FIREWORKS

Madison, Wis., May 7.—An order regulating the use and storage of fireworks has been adopted by the industrial commission and will become effective June 15. This order prohibits the storing of fire crackers, rockets, torpedoes, Roman candles, bombs or other fireworks, pistols, cannons, explosive canes, blank cartridges or other similar appliances or displays in any place nearer than 200 feet from any neighboring building. It also specifies that no rockets or Roman candles shall be discharged within 500 feet of any building and that no fireworks shall be fired within 200 feet from any building. The order especially provides that it does not apply to fireworks displays made under the direction of town or municipal authorities, except that no fire balloons shall be stored or used under any circumstances.

The purpose of this order is to reduce the fire and accident hazard incident to the indiscriminate use of fireworks on or before the fourth of July. It is not intended to eliminate fireworks altogether, but it is thought that it will promote fireworks displays under the direction of town and municipal authorities.

Before this order was adopted it was submitted to the fire chiefs of all the larger cities of the state and it was strongly endorsed by all of them. In many cities of the state similar orders are already in force. Some cities have gone further, prohibiting the use of fireworks altogether during the period of the war, it being considered unpatriotic at this time to use explosives for fireworks displays.

One of the most carefully read pages of the Gazette is the classified—in fact everybody reads it. Advertisers will do well to remember this and use that page often.

## ARMY AVIATORS MAKE GOOD TEST RECORDS

[BY ASSOCIATED PRESS.]

Wallis, Tex., May 7.—New achievements in endurance and altitude tests at the Texas aviation camps have been recorded frequently this spring. Some of the latest are reported from Ellington field at Houston, where on a single day new camps records for both height and endurance were set. An army flyer whose name is withheld by order of the executive authorities at the post, climbed to 20,000 feet, only a little less than four miles in the air. On the same day a civilian demonstrator for an eastern motor company remained in the air, with a passenger, for nine hours and 55 minutes and descended only when his last drop of gasoline had been consumed.

The type of the machine used in the test for altitude was withheld by the Ellington field authorities. The result, they said, was gratifying and of great value in demonstrating the utility of certain innovations and improvements that have been under consideration for some time. The climbing quality and power and speed developed exceeded expectations.

In the endurance trial some of the officers had been of the opinion that the motor to be tested would stall before the gasoline in the tank was completely exhausted, while the manufacturer's demonstrator contended, of course, that the motor would consume every drop of available fuel. With a passenger he arose at 8:25 a. m. and stayed aloft until he was planned to a landing at 6:18 p. m. without a hitch to interrupt his flight. The engine continued running without the slightest indication of stalling until the last drop of fuel in the tank was drained into the cylinders.

## Few Petitions.

Marionette, Wis., May 7.—The number of petitions for naturalization presented at the May term of the court will be smaller than usual according to the calendar just issued here. The decrease is said to be due to the war. Fifteen petitions have been received.

## Both Ends (Producer and Consumer) Against The Middle (The Packer)

The consumer wants to pay a low price for meat.

The farmer wants to get a high price for cattle.

The packer stands between these conflicting demands, and finds it impossible to completely satisfy both.

The packer has no control over the prices of live stock or meat, and the most that can be expected of him is that he keep the difference between the two as low as possible. He does this successfully by converting animals into meat and distributing the meat at a minimum of expense, and at a profit too small to be noticeable in the farmer's returns for live stock or in the meat bill of the consumer.

Swift & Company's 1917 transactions in Cattle were as follows:

	Average Per Head
Sold meat to Retailer for	\$68.97
Sold By-products for	24.09
Total Receipts	\$93.06
Paid to Cattle Raiser	84.45
Balance (not paid to Cattle Raiser)	\$ 8.61
Paid for labor and expenses at Packing House, Freight on Meat, and Cost of operating Branch distributing houses	7.32
Remaining in Packers' hands as returns on investment	\$ 1.29

The net profit was \$1.29 per head, or about one-fourth of a cent per pound of beef.

By what other method can the difference between cattle prices and beef prices be made smaller, and how can the conflicting demands of producer and consumer be better satisfied?
